Relocated to Berlin in December 2025 · Available immediately

PROFILE

Senior product designer with 8+ years designing web and mobile products across D2C e-commerce, enterprise SaaS, and digital platforms. I own design end-to-end from discovery and problem framing through high-fidelity delivery and engineering hand-off and turn complex, data-heavy workflows into intuitive, scalable experiences. Comfortable in ambiguity, fluent in design-system thinking, and an early, practical adopter of AI-assisted design workflows.

CORE SKILLS

Product Design · UX / UI · Product Discovery & Strategy · User Research & Usability Testing · Interaction Design · Information Architecture · Design Systems & Components · Prototyping & Validation · Web & Mobile Applications · Accessibility & Inclusive Design · Data-Informed Design · AI-Assisted Design Workflows · Cross-functional Collaboration · Stakeholder Management · Agile Product Development

Tools: Figma · FigJam · Miro · Webflow · Adobe Creative Suite · Jira · Confluence · Google Analytics · Figma AI · Claude · ChatGPT

PROFESSIONAL EXPERIENCE

Lead UX Designer

Mar 2024 – Sep 2025

UST Global · India

- Owned end-to-end product design for enterprise and customer-facing web and mobile products, from discovery and problem framing through high-fidelity delivery and QA.
- Partnered with product managers and engineers from day one to define product strategy, scope MVPs, and make engineering-aware design decisions that shipped.
- Ran user research, journey mapping, and usability testing to untangle complex workflows and remove friction from core user tasks.
- Built and maintained a scalable design system of reusable components, keeping experiences consistent across products and accelerating delivery.
- As one of two designers, led a global digital-asset-governance audit to reduce broken links and manual rework — mapped the end-to-end asset lifecycle across three enterprise platforms (Adobe DAM, Content Studio, Brightcove) and facilitated a cross-functional workshop to align Ops, Quality, and Asset partners on ownership and prioritised next actions.
- Embedded AI-assisted workflows (Figma AI, Claude, ChatGPT) into research synthesis, ideation, and rapid prototyping to compress the time from ambiguity to a validated direction.

Lead UX / UI Designer

Mar 2023 – Mar 2024

22feet Tribal Worldwide (DDB Mudra Group) · India

- Led UX and product design across web and mobile for multiple client engagements, including the Jio-bp digital fuel-booking experience.
- Defined end-to-end user journeys, information architecture, and interaction models for data-rich, multi-step customer flows.
- Established reusable design frameworks and UI component libraries that improved consistency and the quality of developer hand-off across squads.
- Worked side-by-side with engineering through implementation to protect design quality and ensure technical feasibility.

UI Designer

Jan 2021 – Mar 2023

22feet Tribal Worldwide (DDB Mudra Group) · India

- Designed end-to-end digital experiences across web and mobile for D2C e-commerce and brand clients.
- Produced wireframes, user flows, prototypes, and high-fidelity UI; validated designs through usability testing and iterated on findings.
- Collaborated within cross-functional teams to deliver user-centred solutions aligned to business goals.

Earlier experience

UX / UI Designer, Webenza · India (May 2019 – Dec 2020) — user-centred web and app design, prototyping, and usability testing for digital products and campaigns.

UX / UI Designer, Aurus IT Solutions · India (Jun 2018 – Apr 2019) redesigned the Vijay Sales website, app, and CMS using Material Design; improved the food-ordering flow for the Agent Jack's app.

UI Designer, Mobicule Technologies · India (Sep 2017 – May 2018) delivered developer-ready UI integrated with CMS workflows to support an on-time MVP launch.

SELECTED CASE STUDIES (SEE PORTFOLIO)

- **TTK Prestige — D2C E-commerce Website Revamp** (Lead UX/UI Designer) led the end-to-end revamp of a global home-appliance brand's direct-to-consumer site to improve product discovery, conversion, and trust. Ran stakeholder interviews, a UX audit, journey mapping, and competitor benchmarking, then rebuilt navigation and product-detail pages targeting a ~30% reduction in navigation depth — and delivered a scalable UI system that tightened business–design alignment and reduced design decisions at developer hand-off.
- **Jio-bp Fuel Booking App** (Lead UX/UI Designer) designed a mobile fuel-booking experience to cut wait times, improve station discoverability, and build first-time-user trust. Owned research, UX strategy, information architecture, wireframes, and high-fidelity UI across four core flows onboarding, smart station search, booking, and a rewards-and-spend dashboard built to scale across cities and stations.
- **Global DAM Ecosystem Audit** (Product Designer) as one of two designers, audited the end-to-end digital-asset lifecycle across a global e-commerce platform to reduce broken links, manual effort, and cross-team inefficiency. Owned research and process mapping across three enterprise platforms (Adobe DAM, Content Studio, Brightcove) and facilitated a cross-functional workshop to align Ops, Quality, and Asset partners on governance, ownership, and prioritised actions.

EDUCATION

M.A. in English — Bharati Vidyapeeth (Distance Education), India

B.A. in Business Economics — Tamil Nadu Open University, India

CERTIFICATIONS

- **Certified Usability Analyst (CUA)** — Human Factors International.
- **UX From Scratch** — Interaction Design Foundation.
- **Diploma in 3D Animation (MAAC) & Visual Effects** (Frameboxx), Mumbai.

LANGUAGES

English — Fluent **German** — A2 (actively improving)
