TOOLS

Figma • FigJam • Miro • Webflow • Adobe Creative Suite • Jira • Confluence • Google Analytics • ChatGPT • Claude • Perplexity • Figma AI

PROFESSIONAL EXPERIENCE

Lead I — UX Design, UST Global — India

Mar 2024 - Sep 2025

- Led end-to-end product design for enterprise and customer-facing products, from discovery to delivery, guiding a team of 4 designers.
- Established a cross-product design system adopted by 6 product teams, cutting design-to-development handoff time by around 30%.
- Ran user research, journey mapping, and usability testing that reshaped core workflows and improved task completion by 25%.
- Introduced AI-assisted research and ideation workflows that reduced synthesis time by roughly 40%.
- Facilitated workshops and design reviews to align product, engineering, and business stakeholders.

Lead UX-UI Designer, 22feet Tribal Worldwide (DDB Mudra Group) — India

Mar 2023 - Mar 2024

- Led UX and product design across 5+ concurrent web and mobile engagements, from discovery to delivery.
- Built a reusable component library and design system that improved delivery speed by around 35%.
- Defined user journeys, information architecture, and interaction patterns that lifted engagement by 20% on key products.
- Partnered closely with engineering in Agile workflows, reducing post-handoff rework by about 25%.

UI Designer, 22feet Tribal Worldwide (DDB Mudra Group) — India

Jan 2021 - Mar 2023

- Designed end-to-end web and mobile experiences for 10+ client engagements, from wireframes to high-fidelity interfaces.
- Translated usability-testing insights into changes that reduced drop-off by 18%.
- Partnered with cross-functional teams to deliver user-centered solutions tied to business goals.

UX-UI Designer, Webenza India Pvt. Ltd — India

May 2019 - Dec 2020

- Designed user-centric digital experiences focused on engagement and usability across web and campaign platforms.
- Ran usability testing and interaction improvements that raised engagement by roughly 15%.
- Created wireframes, prototypes, and visual designs for digital products and campaigns.

UX-UI Designer, Aurus IT Solutions — India

Jun 2018 - Apr 2019

- Redesigned the Vijay Sales website, app, and CMS using Material Design principles.
- Improved the food-ordering flow for the Agent Jack's app through usability testing and prototyping.

UI Designer, Mobicule Technologies Ltd — India

Sep 2017 - May 2018

- Integrated UI with CMS workflows and delivered developer-ready assets to support an on-time MVP launch.
- Optimized design processes for accessibility and user-focused outcomes.

SELECTED PROJECTS

Vijay Sales E-commerce Ecosystem

- Redesigned the website, mobile app, and CMS on a scalable design system, and ran stakeholder workshops to align business goals, technical constraints, and user needs. Improved conversion by around 20%.

Digital Asset Management Platform

- Designed asset organization, metadata, search, and collaboration workflows for an enterprise SaaS product, with scalable patterns and governance standards. Reduced asset-retrieval time by about 30%.

Jio-bp Digital Experience

- Redesigned customer journeys across web and mobile for a fuel-tech platform and improved information architecture through research-led decisions. Increased task completion by around 22%.
